

Family and Beyond

Vision Statement

Family and Beyond aspires to connect family with each other, our communities, nation, and globe by engaging our philanthropic imaginations in service to those beyond ourselves.

We will provide space to learn and grow, to practice conflict and collaboration skills, and to jointly decide on a Giving and/or Investment Plan that addresses issues and aids organizations working for the common good. As a blended family, we will blend the gifts, ideas, and research results we bring to our table, and agree upon ways to most effectively execute a giving plan. Over time, we will track our giving decisions and maintain flexibility in amending our plan as we learn and grow, and to serve the greater good.
